

車内外情報から個々の運転状態を判定し、安心・快適な走行軌道に自動修正

Adjusts for safe and comfortable trajectory automatically by analyzing driving condition based on interior/exterior information

特長 : Feature

- 目標軌道への自動トレースと正しい操舵角への誘導

Automated trajectory tracing and guidance to the correct steering angle.

- 「目標軌道」と「予測軌道」から個々の運転状態を判定

Analyzes individual driving condition by target and predicted trajectory

- 運転状態に応じた最適な操作支援による安心・快適な走行の実現

Achieves safe and comfortable driving through optimal operational support based on driving conditions
